Professional Summary

A technology professional working as a Junior Developer for a major software supplier in the financial markets industry.

I work in a team of developers managing the IT operations of the business.

Primary responsibility for the management of the corporate intranet.

Personal Profile

Hard-working and enthusiastic with a drive to learn quickly. I enjoy working with a team or on my own and am very flexible in a busy working environment. I take pride in having organisational skills and working to deadlines.

Having graduated with a degree in Computer Games Development (BSc 2.1) my interest is to develop my career in this industry. To showcase what I can offer, I have set up a link to an online portfolio which showcases my various game projects and skills.

In my spare time I am working with a virtual team to bring my programming skills to the development of a new action-adventure game called Tails Adventure Armada, a Free-to-Play, modern remake/sequel to the Tails Adventure game published by Sega. Here I utilize my academic programming skills to help develop the game's mechanics.

My passion is to work in the Computer Games industry full time.

Current Work Experience

Junior Developer | 3d-Innovations

July 2019 to Current

3di Innovations is a global data management consultancy with offices located in the City of London and New York, who uses its global knowledge of local markets to offer Investment Banks, Brokerages etc best-of-breed market data advisory and implementation services.

- Develop and manage profiling/publishing scripts using Java, JavaScript, HTML, CSS & SQL.
- Assist with cross-referencing data across database entries using SQL.
- Assist with web documentation using Word and Java.

Environment: Java, JavaScript, HTML, CSS, SQL, React, Angular, Microsoft Word, Microsoft Excel.

Other Work Experience

Junior Administrator | 3d-Innovations

Jun 2017 to Sep 2017

- During my employment in 3d-Innovations, after accumulating web development skills from my studies, I was tasked with creating an intranet site (an internal site for the company), which would allow the staff to stay up-to-date with internal affairs and be alerted to any changes to the company.

Click & Collect | Toys R Us – Stevenage

Oct 2015 to Dec 2015

- While working at Toys R Us I worked within the Click & Collect operation working with customers to fulfil online orders as part of their pre-Christmas holiday staff.

Personal Interests

- Martial Arts: Qui Qwan Do - Black Belt First Dan
- Listening to music and playing video games
- Full driving license
